POT HOLE SEASON IS HERE!

What causes a pot hole? They are caused by the expansion and contraction of ground water after the water has entered into the ground under the pavement. When water freezes, it expands. Think of when ice cubes are made

Our DPW crews will be going from Winter operations to spring operations. this will include filling pot holes around town. Please give the guy's room to work if you see them out there. To report a pothole email DPW@elsie.org
